

OVERSEAS INTERNSHIPS AVAILABLE 2017/18

Belize Bird Rescue, Avian Rehabilitation Centre and Bird Sanctuary

The centre accepts all species of indigenous birds although our primary focus is on the care and rehabilitation for release of wild-caught psittacines.

There are over 160 Amazon parrots under care this season. A typical year brings us 200+ birds of many different species (parrots, raptors, passerines and waterbirds)

Tasks include:

- Food prep and diet management
 - Husbandry & enrichment
 - Hand-feeding, biometrics & husbandry for baby birds
 - Medical care, clinic duties and health checks
 - Rescues & releases
 - Care and management of rodent and insect colonies
 - Care & management of domestic birds
 - Education & Outreach
 - Cleaning, organizing and record-keeping
 - Social Media & fundraising
 - Horticulture of bird food crops
- ✓ Interns are required to cover the cost of board and lodging with a \$25US per day contribution
 - ✓ Excellent accommodation and working conditions.
 - ✓ Minimum stays of 4 weeks preferred.

Visit our website or contact us for more information on the programme and application process.
